Adults are most welcome to join us too!
Each year the design team of teenagers and adults spends hundreds of hours planning and creating the VBS experience for the children of the area.

So why do we do all this? We really do believe the VBS theme song, “I love you and God loves you and that’s the way it should be.” We spend this kind of energy because we believe our children can change the world. If we learn to take to heart the central message of the Gospel of Jesus Christ to love one another, the world will be different. Our kids are worth it so we venture forth!

The entire parish at Holy Cross waits with the children of the area in great anticipation for the theme and decorations which will enshroud the entire campus. It is a joy filled week that celebrates how much God loves us in Jesus Christ and how we are called to love each other.

We invite you to join us this summer for an adventure in God’s love!
